

## **KCER: Kidney Community Emergency Response Coalition**

Dear ESRD Networks,

As directed by CMS, the Kidney Community Emergency Response (KCER) Coalition provides alert notices. Please share this information with your organization's stakeholders, ESRD Network (facilities, patients), your State Agency contacts, and your staff. If you have already shared this information, no duplication is necessary. These notices will also be posted on the KCER website, <http://www.kcercoalition.com/alerts.htm>.

### **Caraco Pharmaceutical Laboratories, Ltd. Announces a Nationwide Voluntary Recall of All Lots of Digoxin Tablets Due to Size Variability**

**Contact:**

Daniel Movens: (313) 871-8400

Thomas Versosky: (313) 556-4150

**FOR IMMEDIATE RELEASE** -- DETROIT, March 31, 2009 -- Caraco Pharmaceutical Laboratories, Ltd. (NYSE AMEX: CPD), a generic pharmaceutical company, announced today that all tablets of Caraco brand Digoxin, USP, 0.125 mg, and Digoxin, USP, 0.25 mg, distributed prior to March 31, 2009, which are not expired and are within the expiration date of September, 2011, are being voluntarily recalled to the consumer level. The tablets are being recalled because they may differ in size and therefore could have more or less of the active ingredient, digoxin. The recalled tablets were manufactured by Caraco Pharmaceutical Laboratories, Ltd. This recall is being conducted with the knowledge of the Food and Drug Administration.

Digoxin is a drug product used to treat heart failure and abnormal heart rhythms. It has a narrow therapeutic index and the existence of higher than labeled dose may pose a risk of digoxin toxicity in patients with renal failure. Digoxin toxicity can cause nausea, vomiting, dizziness, low blood pressure, cardiac instability, and bradycardia. Death can also result from excessive digoxin intake. A lower than labeled dose may pose a risk of lack of efficacy potentially resulting in cardiac instability. Consequently, as a precautionary measure, Caraco is recalling these tablets to the consumer level to minimize any potential risk to patients.

Consumers with the products with the following NDC codes that are within expiration should return these products to their pharmacy or place of purchase.

## **Product Identification**

**Caraco Digoxin 0.125 mg** is a scored round biconvex yellow tablet imprinted with “437”

Caraco Digoxin 0.25 mg is a scored round biconvex white tablet imprinted with “441”

## **NDC Numbers:**

Digoxin Tablets, USP, 0.125 mg  
57664-437-88 (100-count)  
57664-437-18 (1000-count)

Digoxin Tablets, USP, 0.25 mg  
57664-441-88 (100-count)  
57664-441-18 (1000-count)

Patients using Caraco's Digoxin tablets, USP, 0.125 mg or 0.25 mg, who have medical questions should contact their healthcare provider for additional instructions or guidance.

Retailers who have this product should return the product to their place of purchase. Retailers can call Caraco customer service at (800) 818-4555, Monday through Friday, 8:00 a.m. – 5:00 p.m. EST, for instructions on how to return the affected product or for any other inquiries related to this action.

Any adverse reactions experienced with the use of all affected product, and/or quality problems should also be reported to the FDA's MedWatch Program by phone at 1-800-FDA-1088, by Fax at 1-800-FDA-0178, by mail at Med Watch, FDA, 5600 Fishers Lane, Rockville, MD 20852-9787, or on the MedWatch website at [www.fda.gov/medwatch](http://www.fda.gov/medwatch).
