

# Do You Have A Concern?

The first step to take if you have a complaint is to ask the staff at this clinic for a copy of their policy and a written description of the complaint procedures for this clinic. If you have already been through the clinic complaint procedures and you are still unsatisfied you may contact either agency listed below for a complaint review conducted by an external oversight agency. If you prefer to deal directly with an external oversight agency, please contact either of the numbers below, depending on the nature of your complaint.
